

Open₂O Installation Technician

Location: Linden Alberta

Position Type: Full-Time

Reports To: President

About the Role

Current Group is excited to introduce a revolutionary new product to the cattle industry and we need your help. Open₂O is an electronic device that connects to existing water bowls to save power and prevent freezing.

We are seeking an energetic and motivated Installation Technician to install these cost saving devices. This role involves installing, maintaining, troubleshooting, and repairing Open₂O systems in cattle operations such as farms, feedlots, and pastures. The ideal candidate will possess a strong technical aptitude, a customer-focused attitude, and a passion for supporting Alberta's beef industry.

Key Responsibilities

- Install new Open₂O monitoring devices on existing water bowls and livestock waterers, ensuring proper functionality and compliance with safety standards.
 - Connect monitoring device to Open₂O application and host software, test installation, and train customers on its use.
 - Diagnose, troubleshoot, and repair Open₂O monitoring systems, including power supply, water supply, and communication issues.
 - Build and maintain strong relationships with agricultural customers, delivering excellent customer service and technical advice.
 - Keeping your work area safe, clean and organized.
 - Ensure all work adheres to the Canadian Electrical Code, and OH&S regulations.
 - Complete service reports, maintenance logs, inventory records and safety documentation accurately and on time.
-

Qualifications & Skills

- Registered as an Electrical Apprentice in Alberta in your 2nd or 3rd year of apprenticeship.
- Minimum of 2–5 years of experience in electrical service, preferably in the agriculture or industrial sector.

- Strong diagnostic and troubleshooting skills with electrical, electronic and communication systems.
 - Proficient in using hand and power tools, diagnostic equipment, and electrical testing devices.
 - Ability to work outdoors in diverse agricultural environments, including confined spaces with cattle.
 - Valid Alberta Class 5 driver's license (or equivalent) with a clean driving record.
 - Strong verbal and written communication skills to interact effectively with customers and team members.
 - Commitment to workplace safety and knowledge of OH&S regulations.
-

Preferred Assets

- Experience with agriculture automation.
 - Familiarity with PLCs, and other automation systems.
 - Farming or ranching background.
 - Additional certifications such as WHMIS, First Aid, or defensive driving training.
-

What We Offer

- Competitive salary and benefits package.
 - Opportunity to work with cutting-edge technologies in agriculture.
 - Flexible and supportive work environment with opportunities for professional growth.
 - Company vehicle and tools provided for field service work.
 - Training and development programs to expand technical skills and industry knowledge.
-

How to Apply
